Prepared for Nature's Value: my growth plan for @dr.michaelmurray and the brand. mkparrish.com/natures-value →

SUMMARY

Marketing manager with nearly two decades turning trusted brands into products people buy, across consumer, retail, media, and manufacturing. I own the work from strategy through launch: audience and channel planning, briefs and creative direction, build, QA, and the measurement that proves it worked. I've run national marketing for a Long Island manufacturer across distributor, dealer and direct-to-consumer channels, grown a creator network to 80M+ monthly viewers, and led retail channel marketing supporting $20M+ in product revenue. I'd bring that mix to Nature's Value: making the science credible, the story human, and every campaign accountable to sell-through.
