

GO-TO-MARKET · POSITIONING · PRODUCT MARKETING

THE PMM WHO CAN WRITE THE STORY AND SHIP THE FUNNEL.

Senior growth operator & writer — one pair of hands, no agency layers.

Two decades closing the gap between what a product has become and how the market sees it. I own the narrative end to end — positioning, launches, sales enablement, and the words on every page — so the value is obvious before a buyer ever takes a call.

THE FIT

WHY CAREERPLUG

CareerPlug already has the product and the proof — hiring software that helps thousands of small businesses and franchises make better hires. In a category like recruiting software, the win goes to whoever makes the value **unmistakable**: why this, why now, why you. That gap — between a genuinely great product and the language that sells it — is the exact work I have done for two decades.

I would own the GTM narrative across the funnel: **positioning that differentiates, launches that land, enablement that helps sales win, and copy that converts** — so the market sees CareerPlug as clearly as its customers already do.

THE CASE

THREE REASONS I'M THE HIRE

- 01 STRATEGY AND EXECUTION IN ONE OPERATOR**
Most teams buy a senior name and get junior output. I do the thinking and the shipping — positioning, messaging, the website, and the campaign all say the same thing and pull the same direction.
- 02 A TRACK RECORD MEASURED IN REVENUE**
\$40M+ in pipeline influenced across Fortune 50s and funded startups. I speak fluently to product, sales, and the buyer — and I tie marketing to numbers a board will recognize, not activity reports.
- 03 A PRODUCT MARKETER WHO CAN ACTUALLY WRITE**
The rare PMM who writes every sentence by hand — the launch, the one-pager, the sales narrative, the homepage. Clear words are the whole job, and they are the thing I am best at.

WHAT I BRING

EXPERTISE

- GO-TO-MARKET**
Launch strategy, segmentation, and demand systems tied to qualified pipeline — across B2B SaaS and consumer, from first sentence to booked call.
- POSITIONING & MESSAGING**
Category narrative, value propositions, and competitive differentiation that make a product's value obvious to the right buyer.
- PRODUCT MARKETING**
Sales enablement, launch playbooks, lifecycle messaging, and a buyer-informed narrative that helps reps win the deals that matter.
- WRITING**
Web, long-form, launch, and executive ghostwriting — every line written by hand. Copy without strategy is decoration; I do both.

SELECTED ACCOMPLISHMENTS

- **\$40M+ pipeline influenced** across two decades of demand and growth.
- **32% cold reply rates** on outbound built on sharper positioning.
- **End-to-end GTM systems** — site, messaging, and pipeline owned solo.
- **Fortune 50 to startup** range — same operator, every altitude.
