Prepared for ADP: how I'd sell HRO Comprehensive Services on Long Island. mkparrish.com/adp →

PROFESSIONAL SUMMARY

Consultative B2B seller with nearly two decades selling technology and services to business owners and executives, from multimillion-dollar Fortune 500 partnerships at DEFY Media to $200M+ in partner-influenced cloud revenue at Ericsson. I learned the HR and benefits buyer at Mercer, the HR and benefits consulting firm, working with CHROs and Fortune 50 leaders. Today I run the full sales cycle at Mercedes-Benz of Smithtown, selling a premium product on the value of what's included, and I source, pitch, price and close every engagement at my own consultancy, where I'm working with Long Island's construction employers through the Long Island Builders Institute. I'd bring that mix to ADP HRO Comprehensive Services: selling payroll, benefits, HR and talent outsourcing to owners and finance and HR leaders who want experts to carry the work while they keep control of their business.

PROFESSIONAL EXPERIENCE

SALES CONSULTANT

Smithtown, NY · 2026 – Present

Mercedes-Benz of Smithtown

Consultative sales of a premium, technology-heavy product line to Long Island buyers and business owners.

- Own the full consultative cycle: prospecting, discovery, presentation, financing, negotiation and close.
- Sell on total value, not sticker price: warranty, service, technology and peace of mind, the same case Comprehensive Services makes against a cheaper payroll provider.
- Opened a new prospecting channel by calling service customers ahead of their appointments, turning existing customers into showroom appointments.
- Mastered a complex EV, hybrid and driver-assistance portfolio, and coded a custom web-based inventory lookup tool to answer buyer questions in real time; built a test-drive booking page and short-form video series that bring new buyers in.

B2B consultancy delivering go-to-market strategy, web development, social media, branding and ghostwriting.

- Prospect, pitch, price and close every engagement directly with business owners.
- Working with the Long Island Builders Institute (LIBI) and its subcontractor network: owners of growing construction and trade businesses with multi-site crews, union and prevailing-wage payroll, and heavy compliance needs.
- Run multi-channel outbound powered by AI-agent workflows for account research and personalization, booking meetings at cold reply rates as high as 32%.
- Delivered $40M+ in influenced pipeline across client engagements.

WHAT I'D SELL: ADP COMPREHENSIVE SERVICES

- **Comprehensive Pay:** Payroll administration, tax filing and compliance, audits and reconciliation, run by ADP specialists.
- **Comprehensive Benefits:** Benefits administration, open enrollment and carrier invoice reconciliation, with a Benefits Specialist.
- **Comprehensive HR:** Day-to-day HR guidance, compliance support and a forms and best-practices library, with an HR Specialist.
- **Comprehensive Talent:** A Talent Consultant to help source, hire and keep the right people.
- **Across every bundle:** ADP Workforce Now, a strategic advisor, regular business reviews and phone support for employees and managers. The client keeps its plans and its decisions.

HOW I MEET THE ROLE

- **Sell a service, not software:** Comprehensive Services is people plus Workforce Now. I've sold services and outcomes to owners for two decades, and at Mercedes-Benz I sell the value of what's included, not the sticker price.
- **Speak the HR & benefits buyer:** Learned it at Mercer with CHROs and Fortune 50 HR leaders. I can talk payroll tax, open enrollment, carrier invoices and compliance with an HR director, and cost and risk with a CFO.
- **Hunt new logos in a territory:** Self-sourcing hunter with a 32% cold reply rate; already working with LIBI's builders and subcontractors on Long Island.
- **Full-cycle, outside B2B closing:** Closing at Mercedes-Benz and at my consultancy; multimillion-dollar, multi-stakeholder closes with Sony, Warner Bros. and Google at DEFY Media.
- **Cross-sell with ADP partners:** Salesforce bundle cross-sell at Ericsson (+25% pipeline, +20% ACV); service-customer calling at Mercedes-Benz.
- **Pipeline discipline:** Ran Salesforce deal-stage reviews that raised win rates 15% and cut sales cycles 30%.
