Prepared for ADP: my 90-day Long Island territory plan for Comprehensive Services. mkparrish.com/adp →

PROFESSIONAL SUMMARY

Consultative B2B seller with nearly two decades selling technology and services to business owners and executives, from multimillion-dollar Fortune 500 partnerships at DEFY Media to $200M+ in partner-influenced cloud revenue at Ericsson. Today I run the full sales cycle on the floor at Mercedes-Benz of Smithtown and source, pitch, price and close every engagement at my own consultancy. I learned the HR buyer at Mercer, working with CHROs and Fortune 50 leaders, and I'm already working with Long Island's construction employers through the Long Island Builders Institute. I'd bring that mix to ADP Major Accounts: a self-sourcing hunter who sells Comprehensive Services the way owners buy, starting with their time, their risk and their people.
