PROFESSIONAL SUMMARY

Consultative, competitive B2B seller with nearly two decades selling technology and services to business owners and executives, from multimillion-dollar Fortune 500 partnerships at DEFY Media to $200M+ in partner-influenced cloud revenue at Ericsson. I run the full cycle today, prospecting, qualifying, presenting, negotiating and closing, at Mercedes-Benz of Smithtown and at my own consultancy, where I'm working with Long Island's construction employers through the Long Island Builders Institute. I learned the HR buyer at Mercer with CHROs and Fortune 50 leaders, and I prospect with AI-driven research and multi-channel outreach. I'd bring that to ADP Major Accounts in Melville: winning new mid-market clients across Long Island for ADP Workforce Now.

PROFESSIONAL EXPERIENCE

SALES CONSULTANT

Smithtown, NY · 2026 – Present

Mercedes-Benz of Smithtown

Consultative sales of a premium, technology-heavy product line to Long Island buyers and business owners.

- Own the full consultative cycle: prospecting, discovery, presentation, financing, negotiation and close.
- Sell on total value, not sticker price: warranty, service, technology and peace of mind, the same case ADP makes against a cheaper payroll provider.
- Opened a new prospecting channel by calling service customers ahead of their appointments, turning existing customers into showroom appointments.
- Mastered a complex EV, hybrid and driver-assistance portfolio, and coded a custom web-based inventory lookup tool to answer buyer questions in real time; built a test-drive booking page and short-form video series that bring new buyers in.

MK Parrish

B2B consultancy delivering go-to-market strategy, web development, social media, branding and ghostwriting.

- Working with the Long Island Builders Institute (LIBI) and its subcontractor network: owners of growing construction and trade businesses with multi-site crews, union and prevailing-wage payroll, and heavy compliance needs.
- Run multi-channel outbound powered by AI-agent workflows for account research and personalization, booking meetings at cold reply rates as high as 32%.
- Delivered $40M+ in influenced pipeline across client engagements.

WHAT I'D SELL: ADP WORKFORCE NOW

- **Payroll & tax:** Payroll, tax filing and compliance across locations and states, in one system instead of spreadsheets and a separate vendor.
- **HR:** One employee record for hiring, onboarding, policies and compliance, with self-service and mobile access.
- **Time & attendance:** Time tracking and scheduling that feed payroll directly: overtime, shift differentials and multi-site crews.
- **Benefits:** Benefits administration and open enrollment in the same platform employees already use for pay.
- **Talent:** Recruiting, performance and compensation tools to hire and keep people as the company grows.

ADP QUALIFICATIONS AND MY PROOF

- **Outside B2B sales, full cycle:** Closing today at Mercedes-Benz of Smithtown and at my consultancy; multimillion-dollar, multi-stakeholder closes with Sony, Warner Bros. and Google at DEFY Media.
- **New business in a defined territory:** Self-sourcing hunter with cold reply rates as high as 32%; already working with LIBI's builders and subcontractors across Long Island.
- **Selling business technology:** Five years at Ericsson taking a cloud communications platform to businesses through reseller, referral and agency partners, on the way to $200M+ in influenced revenue.
- **Strategic HCM conversations:** Learned the HR buyer at Mercer with CHROs and Fortune 50 HR leaders; I open with an owner's hours, risk and turnover, then show the platform.
- **Cross-sell into existing clients:** Salesforce bundle cross-sell at Ericsson (+25% pipeline, +20% ACV); service-customer calling at Mercedes-Benz.
- **Pipeline discipline & forecasting:** Ran Salesforce deal-stage reviews that raised enterprise win rates 15% and cut sales cycles 30%.
- **Modern selling skills:** AI-agent workflows for account research and personalization; I code my own sales tools.
